- camera
- binoculars

**Do NOT bring: matches, lighters, knives, walkmans/electronic toys, gum, candy.  
No food or drinks of ANY type allowed in the tents.**

### Packing Things Up

Camp gear should be in a small sports bag - NOT a garbage bag. The sleeping bag can be stored in a garbage bag to keep it dry. Please do not use large hockey bags or framed backpacks as space may be limited.

Label all items possible with a permanent marker.

Cubs will be responsible for ALL their belongings at all times. To help them learn to be responsible, have them lay out the items they are taking, and have the Cub pack the camp bag. This will also help them know what they brought - and therefore what they should bring home! If you end up with items that do not belong to your Cub, let a leader know please.

### Medication or Allergies

Medication should be put in a Ziploc bag or container that contains everything needed. Printed instructions to be provided as well. Provide a spoon for liquid medication as required. All medication is to be handed in to a leader. If you have concerns, please contact a leader to discuss.
